

## **MOTORIZED CURTAIN**

is fast becoming a common feature in most contemporary and chic residential homes.

**CURTAIN** plays a big part in your house overall décor, and a simple motorised curtain system will bring your home to another new level of sophistication and elegance. True luxury make possible by home automation system does not have to be expensive and out-of-reach, approach our friendly retailers for a live demonstration on how Somfy's Glydea™ motorisation system can achieve that dream home of yours.

## **LUXURIOUS LIVING BEGINS WITH GLYDEA™**

- Smooth and quiet operation at less than 50dBA; giving you the utmost comfort and a complete piece of mind that you deserve.
- Aesthetically pleasing with no unsightly wires and cords, thanks to Somfy patented cover neat design.
- Powerful and strong, Glydea™ can hold up to 60kg of fabric. Giving you the freedom to choose from the wide array of fabrics that complement your ideal interior design.
- Manual over-ride operation allows your curtain fabric to be preserved once it senses the fabric being pulled.
- Adjustable end limits, allowing curtains to retire neatly at both track ends, further enhancing your interior look.
- Customized speed control allows you to synchronize your curtain's speed with the pace of your life.
- Intelligent track provides curtain coverage of up to 15m in track length. Track can be curved to suit the different layouts of the room.
- Touch control motion allows curtain to be closed or opened fully with a slight pull.
- Standard and ripple-fold accessories available for different curtain design.
