BOOST YOUR DEVELOPMENT

Today, curtain motorization is becoming the standard for the hotel trade, conference rooms and the top end of the residential sector. With Glystro®, Somfy proposes a motorization solution that can adapt to all your interior project requirements.

MAKE THE BEST RECOMMENDATION

Glystro® motorization solutions for curtains include many advantages:

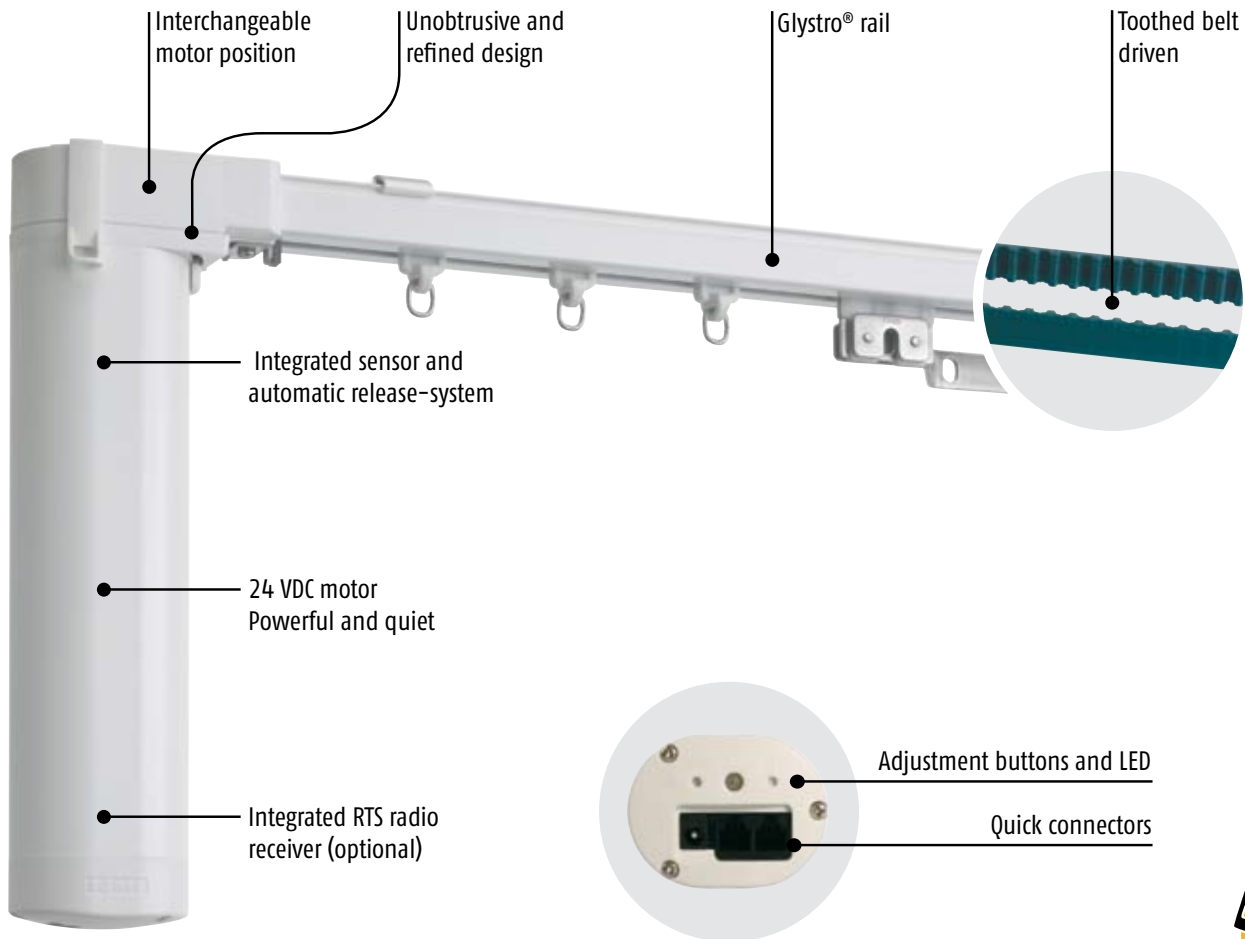

- Accessible to both first-time installers and those with experience.
- Compatible with Somfy's current control range.

Recommend curtain motorization, and give your customers long-lasting comfort with extra prestige.

Glystro®

Motorize and bring curtains to life: it's so easy!

With only two drive units and one rail to meet most of the market needs, **Glystro®** is both time-saving and effective for meeting with the requirements of your customers as well as your own.
